SAFIA ASAD ABDULKADIR

JUNIOR SOFTWARE DEVELOPER | REMOTE ADMINISTRATIVE & DATA SUPPORT

Galkacyo, Puntland, Somalia • +252 906 079 110 • sofiadata.dev@gmail.com • github.com/Sofia-Asad • sofia-asad.github.io/Sofia-Portfolio

PROFESSIONAL SUMMARY

Computer Science graduate candidate at East Africa University with a 3.90/4.00 cumulative GPA and top student honors in multiple semesters. Practical experience across frontend and backend web development (React, JavaScript, Python, SQL, PostgreSQL) paired with reliable data entry, spreadsheet architecture (Microsoft Excel formulas, sorting, filtering), and document formatting. Experienced through ongoing software development internships (CodeAlpha), structured mentorship (Dugsiiye Full Stack AI Engineer), and commercial data entry (Amtel LTD). Eager to contribute punctuality, technical ability, and dedicated work ethics to international remote software teams, NGOs, and digital operations.

CORE & TECHNICAL SKILLS

Software Development: HTML5, CSS3, JavaScript (ES6+), React, Python, REST API integration, Responsive Web Design

Databases & Tools: SQL, PostgreSQL, Oracle Database, Git, GitHub, VS Code, Digital System Troubleshooting

Data Entry & Spreadsheets: Microsoft Excel (Formulas, Sorting & Filtering, Data Validation, Deduplication), Accurate Transcription, Data Cleaning

Document Formatting & Admin: Microsoft Word Document Formatting (Styles, Alignments), PDF Conversion & Archiving, Web Research

Professional Strengths: Punctuality, High Dedication, Teamwork & Cooperation, Fast Learner, Trilingual Communication

EDUCATION

Bachelor of Computer Science — East Africa University, Galkayo Campus 2022 – Expected Nov 2026

Cumulative GPA: **3.90 / 4.00** (156 Credit Hours, 608.3 Grade Points). Coursework completed June 2026; provisional transcript verified.

Diploma in Software Engineering — Golis University, Hargeisa Completed

Comprehensive foundational studies in software architecture, computer programming, and engineering methodologies.

PROFESSIONAL & INTERNSHIP EXPERIENCE

CodeAlpha — Software Development Intern (Remote) October 2026 – Present (Ongoing)

- Participating in structured engineering assignments focusing on modern frontend components, user interfaces, and modular programming.
- Utilizing Git and GitHub for version control, code review workflows, and collaborative feature development.

Dugsiiye — Full Stack AI Engineer Mentee (Level 3 - React) Ongoing Mentorship

- Engaging in intensive hands-on training covering React state architecture, custom hooks, API integration, and clean code standards.

Amtel LTD — Data Entry & Operations Intern (Commercial Department) June 2025 (One-Month Intensive)

- Managed data transcription, record verification, and spreadsheet organization with high accuracy and strict confidentiality.
- Awarded official written commendation from supervisor Abdiaziz Said for exemplary punctuality, teamwork, and reliable work ethics.

SELECTED SOFTWARE PROJECTS

Fududeeye Service — Marketplace & CRM Web Application (Degree Thesis Project) github.com/Sofia-Asad/fududeeye-service

Comprehensive web platform developed for property rentals, land listings, and second-hand marketplace transactions. Engineered with React, JavaScript, and structured database design.

Hotel Room Booking System & Real Estate Management System (EAU AI Program) East Africa University Capstones

Engineered systems handling inventory tracking, reservation calendars, conflict resolution logic, and relational database management.

HONORS & CERTIFICATIONS

- **Certificate of Honor:** Top Student, Semesters 1, 4, 6 (EAU)
- **AI-Powered Software Development:** East Africa University (Dec 2025)
- **Introduction to Cybersecurity:** Cisco Networking Academy (Dec 2025)
